

Before harming or killing, arms first deny our will, our freedom, but they were in nature and we have got not other option but to organize (as tribes, hordes, states) and submit our thinking, words and deeds to their logic; to be superior to the others.

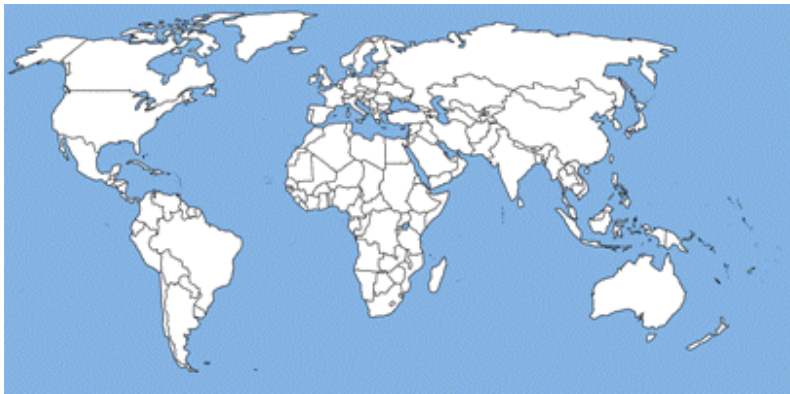

Until when we will go on “trying” to regulate our relations defining good and evil? Actually Arms, their power, are the ones determining what is good and what is evil. They make us to ‘confess’ and to ‘agree’ with them.

If we want to live without violence, even to survive, we have to propose ourselves disarmament and only then we will know, we will find out, what is right, what shall we do and how to organize ourselves.

All we really want is to increase power, properties, this is; submit and disposses others? We say; power, property, is first and only then comes using things, so absurd is it but this is the world way. This is not true, the world is rational; first is indeed the use of things, this is what makes and gives sense, rationality, to everything, the trouble is that Arms, have priority, they are the supreme use (This is transmitted as (IN)SECURITY in general terms at all levels), only then, and as Arm use consequence, power, property and hierarchy is generated, as also the absurd figurations of the world whose use is justifying violence.

Armed units map

Emerged surface in Earth

We show the white flag, the only mean able to detain arms effect, in order to stop violence and to produce ceasefire in the world.

Hereby we are calling for an open, transparent, common, global conference on human security which involves every single human being in order to carry out disarmament.

Arms deny our will and disarmament will free us.

Disarmament is the common cause that unifies the world. You will realize where sincerity lies, not everything is politics, and the truth is indifferent to time.

As armies are ones against the others, the Disarmament Conference makes them redundant by assuming world common security, therefore the Conference practice is their dismantling or, indeed, disarmament.

In this way, as our current condition is to dispose everything for re-arming; with a supreme body for human security all our activity will be to dispose everything for disarmament, for building up the human community.

FLYING THE WHITE FLAG CALLING FOR A GLOBAL DISARMAMENT CONFERENCE

WHEN: 10/10/2010 CONFERENCE START

HOW: 9/9 – 9/12/09 VOLUNTEERS, NGO PREPARATION COMMITTEE
